

LUNCH & LEARN WORKSHOP

Accessibility with Alexa & the Amazon Echo

Wednesday, August 30, 2017

Stephen DeTatto of *Silver Lining Technologies* will present and demonstrate the key features of what Alexa can do to make life organized, easier and fun and entertaining without having to TOUCH anything – just ASK, Just TALK! He will also explain real world scenarios and show how Alexa can make information, appointments and reminders and music easy to get and easy to do, and much more. Alexa can even control your lights and other appliances in your home.

This is one of the most up and coming technologies in the world and they are here to make it easy to understand with a key focus on accessibility and usability for the visually impaired.

Please join us for a fun and exciting event of what is totally new and different – and really works hands-free!

**This workshop will be held at our Warwick office at 1944 Warwick Avenue
(in the Beacon Building)**

As part of OSCIL's outreach and community education initiative, OSCIL offers these free "Lunch and Learn" workshops highlighting various solutions that can increase access in your home and community.

Call 738-1013 for more information and/or if you plan to attend this *FREE* workshop. Seating is limited & pizza will be served.

A Sign Language Interpreter and CART have been secured for this event.

United Way's 211 Outreach RV will also be on site to answer questions about other resources and services available in Rhode Island.
